Dear Parents and Carers,

As many of you will know, one area that has needed improvement at Mullion School for some time is the toilets. I am really pleased to let you know that the Trust is investing over a quarter of a million pounds to completely refurbish them. This is a significant investment in our school, and I am glad to be able to share this news with the community.

The work will begin over the half-term break. There will be some disruption while the refurbishment takes place, but we are doing everything we can to keep this to a minimum. Two blocks of temporary toilets will be delivered for students to use during the works. These are good-quality mobile units, similar to those used at events. We will be asking students to use them sensibly, and staff will be supervising closely.

There will also be some building work around the site, which may mean a few room changes. We have planned carefully to make sure that learning continues with as little interruption as possible.

I am really pleased we are able to make this improvement—it is another step towards giving our students the environment they deserve.

Yours sincerely
